# PROPOSAL LETTER

Warm salute to this brilliant and gratifying day of our educational and exploratory engagement!

We are Mondiale Creative Resources OPC, a team of talented and promising people coupled with a very determined young entrepreneur envisioned to bring exceptional forms of services to customers from all over!

Here at Mondiale Creative Resources OPC, we take pride in the fact that we value our youth's education as much as we give priority to their emotional health and socialization skills. It is our firm belief that students are more receptive to knowledge absorption when they go out and 'see the world'. Aside from the four corners of the study room, there is much more to see outside that will lead to a student's acquisition of the critical social and emotional skills. Proportionately, these skills have a large chunk of contribution in the youth's continuing journey towards adulthood and the world of employment and/or business ventures.

Our wide variety of offerings for educational tour packages are meant to address the needs of students when it comes to knowledge appreciation, skills and interest motivation, and the appropriate socialization activities.

The Mondiale Creative Resources OPC team is bound by a strong principle of work ethics, and strengthened by the company's core values which are identified in the following:

#### **Motivated and Mission-driven**

Our whole team's backbone is strengthened by the proper motivation to uplift the kind of service we offer, thereby achieve heightened customer satisfaction

#### **Creative and Cooperative**

#### **Resolute and Responsible**

This promising company is strongly oriented to stand firmly on its business principles as it ventures into different situations arising within its operations. Everyone is performing his role in making the experience worthwhile and outstanding for the customers.

For you, our dear clients, and stakeholders, we offer our humble services to fulfill your needs for travel and tour packages which aim to provide an exemplary and worthwhile experience. It is our great honor to be working alongside your academic and student affairs team, as we share that vision of helping our dear students to learn and have fun.
